LEARNING AND DEVELOPMENT

CAPABILITY BUILDING

Better Business Analysis

Good, better, best
- never let it rest

BETTER BUSINESS ANALYSIS

Robert Kiyosaki once said 'Confidence comes from discipline and training'.

He wasn't exactly talking about Business Analysis training, but he easily could have been.

Imagine the difference to your team or yourself if you were given a problem and you knew exactly what to do to tackle it. This is the real magic of training.

ABOUT MCBI

MCBI is a high quality International corporate training provider committed to improving the skills of our clients and students through innovative and engaging training experiences.

OUR TEAM

MCBI Australia's course instructors are real practitioners and experienced trainers. We are Business Architects, Business Analysts and Project Managers who delivers a wealth of applied knowledge making your learning experience relevant, current and interesting.

Better Business Analysis

Quyen Nguyen, BBA (Adelaide), ACCU

From the training, I now have a range of 'tools' which will better my ability to perform my role as a 'better' and more valuable business analyst.

Peter Aiavao, Better Business Analysis (Brisbane), Telstra

'I really liked the fact that the presenter validated my questions and has prepared me to consider how to approach people and issues.'

COURSE OVERVIEW

The Better Business Analysis course has been specifically developed to improve the skills and performance of in-house and contracted business analysts who provide analysis into all types of business process improvement initiatives, including technical evaluation and delivery.

The aim of the course is to present a user friendly and flexible framework for business analysts to work with and will help the participant achieve a higher standard of output.

The tools and templates that are provided as a part of the course are flexible and can be quickly adapted to differing work environments.

COURSE CONTENT

Topics covered during the two days include:

- Initiation of a change
- Discovering the As-Is
- Formulating a To-Be and Transformation
- Effective Process Mapping
- Business Modelling
- Business Sponsorship
- Change Management
- BA Tool kit
- Communication Strategies
- Value Added & Non Value Added
- Stakeholder Management
- Gap Analysis
- Workshops Skills
- Effective facilitation

A must for any company embarking on any major initiative or a continual improvement program.

BEFORE THE COURSE

Prior to the course a Welcome Pack will be issued to each student.

In it will be pre-reading, an invitation to perform an online BA assessment and a series of activities to complete prior to the session.
